This swagbucks link will allow for you to get a free 3\$ worth of credits when you earn only 3\$ worth. This will allow you to get at least the starter kit in fortnite.

No other way than depending on products that gives you free V-bucks by buying the product like a PS4 controller with a Fortnite Code for 500 v-bucks.

You can also go to the bank and get one of those free cash for getting a bank account and use the cash to buy v-bucks. Also there is this app that lets you earn a couple of points and use those points to convert it to money and buy V-bucks in some advertisements.

Free V bucks Generator- Free Vbucks Fortnite - Free Fortnite v bucks 2019

Invest in the Save the World version of the game and you can receive endless amount of V-bucks just by completing missions, challenges, and logging in daily. I spent \$20 on the game and I have probably earned over 5,000 V-bucks so far. I also rarely play Save the World as I grind Battle Royale daily.

There are no sites or ways to get free V-bucks, period. If you become desperate to get free V-bucks, you will get your account stolen - end of discussion.

If you've been eyeing a certain skin or are trying to save up to get some new gear you'll know all about Fortnite V-Bucks. They're the in-game currency that allow you to pick up new items like skins and gliders for your Fortnite character and load-out.

While it's possible to simply purchase some in-game currency through the game's store there are a few ways to get free Fortnite V-Bucks. It will take much longer since earning V-Bucks is very much a grind and could take you tens of hours to get enough to purchase a rare skin, but if you're looking to save a buck or two, then here's how to get yourself some free Fortnite V-Bucks.

Getting paid for progression

The most straightforward way to unlock free Fortnite V-Bucks for free is to level up with both experience points and battle stars through completing daily and Battle Pass Challenges. As you level up you'll reach new tiers in the games battle pass system (both the free and \$10 version) and a handful of tiers will give you various amounts of V-Bucks to spend in the games store. Levelling up comes best from playing aggressively and getting kills, surviving longer and getting an experience bonus, and completing various challenges like getting kills with a certain weapon. All these accomplishments will give you experience points that level you up and battle stars that help you reach new battle pass tiers. It pays to play more and that's exactly what Epic wants you to do.

V-Bucks through Fortnite: Save the World

Fortnite's original and less popular horde mode offers daily login bonuses, daily challenges, and rewards for Storm Shield Defense missions. They are quick and easy ways to get a small amount of currency each day, although you'll need to actually purchase the mode.

Save the World is currently priced at \$40, although on sale often, and is not free to play like the battle royale mode. It's a more cost efficient way to get V-Bucks then buying them from the store but still comes with a higher cost of entry.

Steer clear of V-Buck scams

Now that Fortnite is a global sensation many dishonest players are trying to take advantage of players that are looking to buy some new in-game gear. There are dozens of unofficial sites, youtube videos, and posts on social media that promise free V-Bucks. It's likely that every single one of these are fake.

Whatever happens do not provide account, personal, or credit card info to any site or person even if they say they are from Epic Games (they will never request personal information for something like this). Be extra cautious around any offer like that since no legitimate way to earn free V-Bucks outside the game or through glitches exists.

Earning V-Bucks naturally is a tough ask since you'll need to play for dozens of hours before you're able to afford a 1,500 V-Buck item. Don't get discouraged if you see that as a big roadblock ahead of you, earning that flashy glider will feel far better than throwing down \$10 for it will.
